CAREER OBJECTIVE

To obtain a challenging position as a Web Developer where I can apply my knowledge of front-end and back-end technologies, enhance my coding skills, and contribute to creating innovative, user-friendly, and responsive websites for business growth.

EDUCATION

Bachelor of Computer Applications (BCA), Computer Application
Shivaji University Kolhapur

2022 - 2025

TRAININGS / CERTIFICATIONS

Full Stack Web Development

Jun 2025 - Present

The Kiran Academy, Virtual

Enrolled in The Kiran Academy's Full Stack Web Development program, where I'm gaining hands-on experience in creating interactive and responsive web applications using MERN stack technologies (MongoDB, Express.js, React.js, Node.js).

JavaScript

Feb 2025

codecademy, Virtual

PROJECTS

Book store project

Jan 2025 - Mar 2025

This project is a full-stack application designed to manage a collection of books. It leverages the MERN stack, which stands for MongoDB, Express.js, React, and Node.js, and incorporates Tailwind CSS for styling and Firebase for authentication. Here are the key features of the project: 1. User Authentication: Secure user login and registration using Firebase Authentication. 2. Book Management: Users can add, edit, and delete book entries. Each book entry includes details such as title, author, genre, and publication year. 3. Responsive Design: The application is styled using Tailwind CSS to ensure a responsive and visually appealing user interface. 4. API Integration: The back-end API, created using Express.js, handles all CRUD operations (Create, Read, Update, Delete) with MongoDB.

React E-Commerce Site Project

Dec 2024 - Jan 2025

This project is a comprehensive e-commerce web application developed using React, a popular JavaScript library for building dynamic and interactive user interfaces. The project aims to provide a seamless online shopping experience for users, featuring product browsing, cart management, and secure checkout.

REACT PIXABAY CLONE PROJECT

Nov 2024 - Dec 2024

This project is a web application that mimics the functionality and design of Pixabay. The project utilizes React for building the user interface and incorporates various features to allow users to browse, search

SKILLS

- JavaScript
- Express.js
- Tailwind CSS
- React
- HTML 5
- Node.js
- MongoDB
- CSS3
